About the Conference

No subject can grow at its own. The subjects are interconnected and every subject plays an important role in the understanding as well as development of other subjects. Mathematics also plays a vital role not only in basic science but in humanities as well. The basic objective of the conference is to provide a platform for academicians, scientists, engineers and researchers to discuss the recent advances and trends

in the various fields of Pure & Applied Mathematics, Physics, Computer Science, Nanofluids etc. and their role in humanities.

The deliberations of the conference include the invited lectures by eminent scholars from India & abroad and research paper presentation by the faculties of various universities, technical educational institutions & colleges of the world and the young researchers relevant to the theme.

Further, the conference intends to promote high standard in Colleges by way of extending facilities to teachers, researchers and students, by providing a forum for sharing their knowledge, experience and research findings. The aim of the conference is to create an atmosphere of research and study in the subjects like Mathematics, Physics, Computer Science etc. The conference will be devoted to the original research, expository articles that encourage communication between researchers and experts in areas of application.

Call for Papers

Original contributions on topics related to the thrust area of conference from the subjects of Mathematics, Physics, Computer Science, Nanofluids, Humanities etc. are invited for presentation. A participant intending to present the paper should submit soft copy of the abstract and full paper (not exceeding 8 pages including figures, tables and references) and scanned copy of signed registration form latest by **31 August, 2016**. Manuscript should be typed in MS Word with 12 pt. Times New Roman font in one and half line spacing.

Sub-themes of the conference

Role/applications of Mathematics in Physical Science, Bio-Sciences, Commerce & Management, Humanities, Cryptography etc.
