

ONE BEST PRACTICE SUCCESSFULLY IMPLEMENTED BY THE INSTITUTION

Title - Transformation from offline to e-Learning

Objective: To reach and teach each and every student of Himachal Pradesh University during the Covid period.

Context: Due to typical geography of Himachal Pradesh University and connectivity issue it was a challenge to reach and teach each and every student during Covid period.

Best Practice: COVID-19 pandemic has affected whole World and education sector was the most affected one. Due to this pandemic education has changed dramatically from offline to e-learning, whereby teaching is undertaken remotely and on digital platforms. During this pandemic, Himachal Pradesh University has extensively planned to conduct online classes for which immediate steps were taken under the leadership of Hon'ble Vice Chancellor. All faculty members were asked to use all possible available resources to reach and teach each and every student. Himachal Pradesh University strengthened faculty members with desktop computers fitted with web cameras. WhatsApp groups of students and faculty members were created to facilitate students. At the same time, webinars and online lectures engulfed the whole country and our faculty members have started participating in these activities too. University also allocated funds for all the departments for creating smart and conference rooms with updated configuration of resources. Whole campus was also made Wi-Fi during this session and it gave us tremendous advantage. During the online classes, several departments have organized stress buster sessions too in which students have performed cultural programs and other activities to entertain each other.
