

**M.A Public Administration**  
**CDOE, HIMACHAL PRADESH UNIVERSITY**

The program aims to create informed, skilled, and ethical professionals. Students are equipped to contribute meaningfully to governance and administration at various levels.

**Programme Overview and Learning Outcomes**

PO1: Understand the fundamental principles of governance and public service delivery through a well-rounded academic and practical approach.

PO2: Gain in-depth knowledge in core areas such as personnel management, financial administration, constitutional and administrative law, and sustainable development.

PO3: Develop both theoretical understanding and practical competence in administrative structures, processes, and functions.

PO4: Apply public administration concepts across various sectors including public, non-profit, environmental, and healthcare domains.

PO5: Study major administrative theories and thinkers to enhance conceptual clarity and governance understanding.

PO6: Analyse the formulation and implementation of public policy and understand institutional frameworks in national and international contexts.

PO7: Understand the role of key actors in governance-bureaucrats, elected officials, interest groups, media, and experts-and their influence on public policy.

PO8: Acquire a comparative perspective on governance systems globally, appreciating cross-national administrative practices.

PO9: Engage across academic disciplines and sectors to build effective collaboration and problem-solving abilities.

PO10: Develop research, analytical, and independent study skills, preparing for academic, teaching, and policy research careers.

PO11: Cultivate professionalism and ethical responsibility to contribute effectively to public administration and governance.
